

POWER AND FLEXIBILITY IN PERFECT COMBINATION

MULTILIFT FUTURA 12

100 INNOVATIONS TO

MULTILIFT Futura combines good looks, street smarts and forward thinking. Leading the way in skiphandling, the MULTILIFT Futura features a long list of design innovations — many you can see and many more behind the scenes. All ensuring the highest durability, professional appearance, top performance and safe, easy, fast operation. After all, a skiploader should be a workhorse — lifting and transporting containers rather than spending time in the repair shop.

EvoLight™ construction means more payload

MULTILIFT Futura is light, lean and tough. The completely redesigned lightweight steel construction, gives you 300-500 kg more legal payload without compromising strength. That means you can haul more while saving fuel and reducing CO₂ emissions. And it also helps save wear and tear on city streets.

- Lightweight, high-strength steel construction
- Optimised cylinders
- 300-500 kg more legal payload
- Steel castings to strengthen and streamline construction

SwanNeck™ increases reach

With the distinctive MULTILIFT SwanNeck™ design, you can go further than the competition. Literally. The precisely calculated curve in combination with the extra-long telescopic arms increases the skiploader's reach in container handling while maintaining perfect stability — even when lifting over fences and obstacles, or from an unaligned angle.

FlexControl™ offers freedom of control

FlexControl™ gives you freedom to customise your skiploader — paying only for what you need when you need it, as the modular system makes retrofitting easy. Control options even include the possibility to have outside, in-cab, radio remote controls, or a customised combination.

- PLC control system with CAN bus interface
- In-cab, radio, outside controls or combo
- Dynamic on-board weighing system
- Two-speed comfort drive for main arms
- Fast-speed offload with safety interlock
- Smart-drive for telescopic arms and stabiliser legs

HELP YOU PERFORM

Long lifetime and easy service

- Service-friendly design to optimise total cost of ownership
- Service points easily accessible
- Vast assortment of retrofit options
- Proven MULTILIFT control system
- Hydraulic design concept based on hoses for easy serviceability

Built-in quality

- Pre-painted components
- Optional zinc primer for main frames
- All components from MULTILIFT preferred and approved suppliers
- FEM analysis and strain gauge tests
- Frame, swing arms and telescopic arms fulfil tight MULTILIFT quality requirements

Quicker installation

- Fast Bolt-On concept
- Integrated rear light brackets
- Integrated and certified URB
- Increased space for mudguards and other components on chassis sides
- Modern and convenient CAN bus installation for control system

SkipTop™

covers any load — automatic, fast and safe

With just the touch of a button, SkipTop™ makes it automatic, fast and safe to cover any load. With no need to climb up and wrestle with covers and ropes, SkipTop™ saves your time and your back. Not to mention setting higher safety standards on the road.

- Bolt-on interface
- Safe to operate with radio controls

SafetyPlus™

boosts safety for both operator and surroundings

Safety, both for the operator and surroundings, is paramount for MULTILIFT. The new-generation skiploader adds leading-edge safety innovations, such as hydraulic side stops, hydraulic container lock and precise controls combined with safety interlocks, to help eliminate needless risks in skiphandling.

- Rated lashing points
- Hydraulic side stops
- Hydraulic rear lock
- Manually adjustable and locked container side and front stops
- Pneumatic safety latch for tipping hook

BUILT TO PERFORM

Hiab is the world's leading provider of on-road load-handling equipment, intelligent services and digitally connected solutions. Hiab's offering encompasses class-leading load handling equipment including HIAB loader cranes, LOGLIFT and JONSERED forestry and recycling cranes, MOFFETT truck-mounted forklifts, MULTILIFT demountables, and tail lifts under ZEPRO, DEL, and WALTCO brands. As the industry pioneer, our commitment is to increase efficiency in our customers' businesses and to shape the future of intelligent load handling.
