

STRONGER MEANS LONGER

THE MULTILIFT TWO-YEAR WARRANTY

THE STANDARD WARRANTY THAT SETS A NEW STANDARD

MULTILIFT hooklifts and skiploaders are built like no other.
For that reason, they come with a promise like no other.

Introducing the MULTILIFT two-year warranty.

Two years on all products

MULTILIFT hooklifts and skiploaders are built to perform, with strong materials and a quality of workmanship no other supplier can match. And because we build them with care, we stand behind them with confidence.

Today all MULTILIFT hooklifts and skiploaders come with a two-year standard warranty that applies to all products. Not only does it cover the parts you expect, it also covers the following wear parts:

- Painting (when zinc primer option included)
- Seals (both internal and external)
- Hydraulic hoses

Five years for structural parts

In fact, our standard warranty goes much further than the first two years. For all PLC controlled MULTILIFT hooklifts and skiploaders the warranty is five years for structural parts.

And best of all, you can extend the standard warranty for any MULTILIFT hooklift or skiploader by signing a service agreement.

For hooklifts and skiploaders without PLC control (and without cycle counter) structural frames warranty is three years.

Extended warranty terms are valid when:

- Recorded service history included in warranty claim
- Only original Hiab spare parts are used

A one-of-a-kind promise

MULTILIFT customers always enjoy a comprehensive standard warranty. But that should be no surprise. No other manufacturer has ever gone so far – because no other equipment goes as far as a MULTILIFT.

BUILT TO PERFORM

Hiab is the world's leading provider of on-road load handling equipment. Customer satisfaction is the first priority for us. Hiab's product range includes HIAB loader cranes, JONSERED recycling and forestry cranes, LOGLIFT forestry cranes, MOFFETT truck mounted forklifts and MULTILIFT demountables, as well as DEL, WALTCO and ZEPRO tail lifts.
