

MARGHERITA MAXI Chair Stairlift

Nothing is comparable to the comfort to move freely at home with **MARGHERITA**. Easy, compact, silent and always clean.

MARGHERITA in the version **MAXI** is characterized by an oversize seat with **generous dimensions, among the most comfortable available on the market.**

Strong group to guarantee maximum solidity, not only, **SITES** has arranged the armrest and the footrest with a **strengthened structure also to create a valid and necessary support** while standing up or sitting down.

Comfortable in use, just a finger to operate MARGHERITA, keeping your arms comfortably on the armrests.

Easy and intuitive controls, one for each direction, studied to avoid any accidental operation.

The whole seat of the chair MARGHERITA can be rotated to assist you while standing up or sitting down safely at the top floor.

When not in use, Chair **MARGHERITA** can be folded up to **reduce space to minimum**: seat, armrests and footrest are foldable.

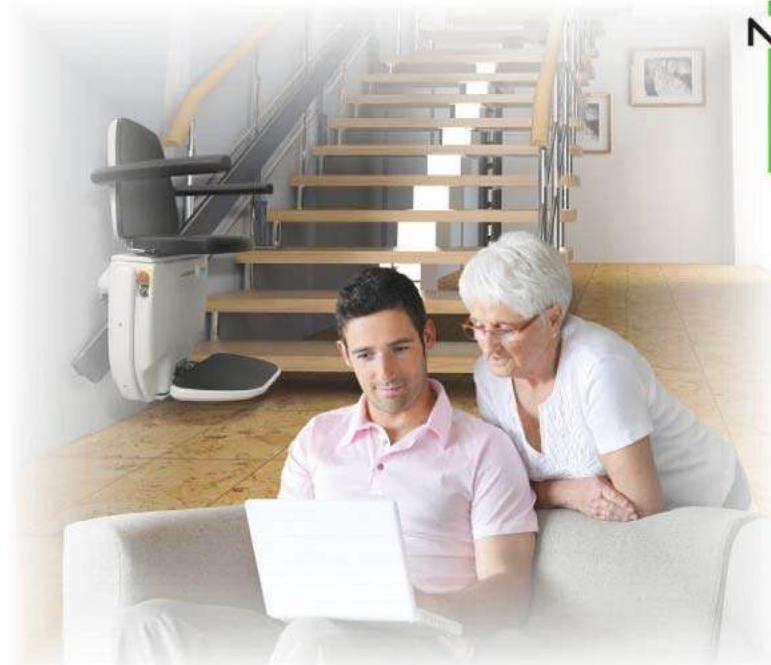

Chair **MARGHERITA** is equipped with **touch sensitive safety devices on the footrest and aside the machine body**: safety for the user and anybody else along the staircase.

The guide rail is kept at a height, normally at knee level, **to avoid any possible danger of tripping over** to whom is walking along the staircase.

Maximun hygiene and cleanliness for your home. Chair **MARGHERITA** has a **dry guide rail** : no oil or grease, simple and with no cavities, it is kept clean by simply dusting off. **Armrests and seat easily washable** by using a sponge.

Chair **MARGHERITA** is suitable for **indoor or outdoor installations**, on every type of **stairs, straight or with internal or external turns.**
